

KGPG

Board of director's message

Since its formation more than 30 years ago, KCPC has been successful in creating an excellent record of accomplishment, ensuring stakeholder's confidence. With our strong leadership and strategic vision, KCPC has successfully met its customer's requirements and exceeded their expectations. Using the latest information and management technology, we provide total project services from initial conceptualization stage through planning, design, procurement, construction, and maintenance.

We are proud of our status as a Grade One construction company. Our success comes from building a stellar record of accomplishment, our commitment to our clients, and a culture of integrity, leadership and loyalty.

As a commitment to delivering quality products at a competitive price to our customers, reducing waste, and improving efficiency and consistency from our operations; we embarked on ISO certifications and have successfully implemented ISO 9001:2015 (Quality Management Systems), ISO 14001:2015 (Environmental Best Practice) and ISO 45001:2018 (Healthy and Safety Management Systems).

Our success is fueled by our commitment to creating a balanced workplace that attracts and retains the most innovative in every field. KCPC therefore strives to be recognized as an employer of choice and has established programs designed to retain and attract highly skilled and motivated professional managers and a creative workforce.

To date, it has been a fascinating journey and we look forward to taking KCPC into next decade of success.

Services

Civil Engineering

Our complete building and civil engineering service incorporates: project and construction management, design, engineering, construction, and commissioning. We undertake residential, commercial and industrial buildings, as well as shopping centers and hotel projects. Our strong associations with globally reputed design, engineering and construction companies enhance our value and strength.

Infrastructure

Supported by our asphalt – batching plants and specialized equipment, we are capable of undertaking all major road and highway construction projects. In addition, we provide complete related services: storm water drainage, sewer systems, water networks, telephone networks, and road marking and signs.

We also maintain drainage pipelines. With the aid of our advanced CCTV inspection technology we are able to detect pipeline conditions quickly and efficiently, thus eliminating the need for time – consuming surface exploratory excavations. Operated by our experienced technicians, robotic CCTV inspection cameras enable us to determine a pipeline's exact repair needs and plan precise maintenance works. This advanced inspection method provides our clients with a cost effective solution to pipeline maintenance works resulting in total client satisfaction.

Electrical engineering

We are the highest graded electrical contractor in Kuwait. With the support of our professional team of engineers, we provide our customers with a wide range of electrical – related products and supporting services. Our services are complete, ranging from supply and installation to project management and maintenance.

Engineering products

Our engineering products have gained the esteemed Quality Mark Certificate from Kuwait's Ministry of Commerce and Industry.

Produced at our own plants, our products include: asphalt, polymer based bitumen, and ready mix concrete. We also provide scaffolding services and equipment rental.

Specialty projects

We provide diverse services and products for various specialized industries.

Oil and Gas: Supply and installation of fireproofing, cladding, mechanical insulation, aluminum, jacketing, sand blasting and coatings.

Construction: Material Supplies including Steel, wood, cement, adhesive and protective paint. Transportation: Construction of airfield runways

Marble & Natural stone

Our Marble & natural stone department is the authorized distributor of Neolith in Kuwait, it is a globally renowned company offering large format Sintered slabs, with extraordinary characteristics. And also the authorized distributor of Silestone in Kuwait , the world leader in Quartz surfaces offering large slabs with more than 60 colors and different thicknesses composed of %94 quartz.

KCPC Marble has a large inventory of Marble, Stone, Granite, Neolith's large format Sintered Slabs, and Silestone Quartz Slabs, Imported from around the world. Catering to the most demanding architects & designers.

Building transport systems

We supply and install the world – renowned elevators brand passenger and freight elevators, escalators and moving walks. We also provide consultation service during the design stages. In addition, our support team of over 100 qualified engineers and technicians provide round the clock maintenance services. Our product range includes: passenger and freight elevators, escalators, moving walks, dumbwaiters, and elevators for the physically challenged.

Water facilities

We construct, install and maintain major, water facilities. Additional services are design and finishes, water proofing as well as after sales maintenance.

Our water facility products include: treatment plants for drinking water for homes and large buildings, swimming pools, water features, and spa facilities.

Scaffolding & equipment rentals

Scaffolding is used as temporary support of concrete during casting or to support man at work like cladding, planning, finishing and maintenance of buildings.

Equipment: Cranes, backhoes, generator sets, bobcats skid loader, air compressor, low- bed trailer and others.

Quality, Health, Safety, and Environment

Our success is underpinned by our commitment to comply with customer requirements and exceeding their expectations. Our corporate policy is to achieve and sustain the highest quality standards in our products and services, while attaining finest health, safety and environment standards.

KCPC being a leader of Health, Safety and Environment performance in construction industry, we operate with a focus on Safety and Health of our employees, contractors, visitors and general community as well as protection of our Environment as our main objective. We achieve this by identification of HSE hazards and eliminating, controlling, and managing them effectively to minimize adverse risk and impacts on our various scope of operations.

The sustainability of our bench-mark performance is a result of our continuously improving QHSE culture across our organization, which remains a top priority for our management and employees.

We consider Quality, Health, Safety, and Environment aspects are integral part of our business planning and operation processes. We remain committed to providing safe working environment and well-being of our employees and to all others associated with our area of operations, while remaining focused on protecting our environment.

KCPC's QHSE management system is certified to ISO 9001:2015, ISO 45001:2018, and ISO 14001:2015. Our integrated management system provides a common framework for our QHSE policy, complying with all applicable local and international regulatory and contractual requirements, setting, and evaluating objectives, monitoring and improving our system performance.

KCPC has received several HSE awards from various clients and organizations acknowledging our HSE standards, in addition to various accreditations including ISO/IEC Standard 17025:2017.
